

MUSIC ACROSS BORDERS

In October 2017, the IFMC presented itself to the public for the first time with ten concerts in various renowned clubs and concert series. Unique in its form, the Jazz Collective unites jazz musicians from Norway, Denmark, Germany, Spain and Switzerland, all of whom have already made a name for themselves in their home scene.

In February 2019 the IFMCollective is back on tour with the second project. The compositions of the Swiss saxophonist and composer Sarah Chaksad will be played and, the band will also play compositions by the members of the band, who are specially arranged for this tour.
